

RIVIERA LIGHT

MADE IN NICE

CONCEPT VERRE BECOMES **RIVIERA LIGHT**

SOUL IN THE MATERIAL

The material is the soul of our creations. It sublimates them and gives them a unique character.

We have chosen to combine noble and ancient materials to magnify our modern and refined designs. A large part of our pieces are made of Murano glass tinted in the mass, and are mouth-blown by Master Glassmakers according to traditional techniques.

Our bases in real Carrara marble or FSC* certified oak wood perfectly match this unique material to dress your interior.

During the production of our pieces, the ideas of our designers are combined with the skills of our glass craftsmen to create authentic and timeless designs.

Sketches and designs become raw material, shaped using traditional methods, to give substance to our products.

We use the latest technological innovations to ignite the spark in this material envelope that will bring our products to life.

**Forest Stewardship Council label, guaranteeing wood from ecologically appropriate, socially beneficial and economically viable forest management.*

ART IN THE MANNER

Each creation is a work of art, and we treat it as such. For each of our fixtures, the glass are checked and decorated one by one in our workshop, by our team.

Our painter carries out every one of our finishing touches. Whether subtle gradations, pastel hues or silvering, each rendering has its own technique.

We precisely apply every nuance, every stroke and every detail to create a finish that perfectly matches your style.

We believe that every fixture should be an extension of your personality and your interior. That's why we offer you a wide range of options for personalizing them. Whether you want an intimate ambience, an explosion of color or a minimalist, contemporary aesthetic, we're here to turn your vision into reality.

For your personal residence, a public space or any other project, our custom fixtures will add a touch of sophistication and character to the space. Each is an exceptional piece, lovingly and meticulously crafted to offer you an unforgettable lighting experience.

7 lights, 49 glasses
Support diam. 600 mm x H 2000 mm
available in chrome, slate or brass
LED tube supplied

Discover the full collection in our individual Chavana leaflet

CHAVANA

Innovative and contemporary, the Chavana collection features pebble glasses stacked alongside a LED tube for a unique effect. Each pebble of the suspension lights up to form a cascade of light and colour.

JEDY SUSPENSION
5 lights, 40 glasses
Support diam. 265 mm x H 200 mm
available in chrome, slate and brass
Glasses available in white
LED tube supplied

JEDY

La gamme Jedy est composée de verres ronds ou ovales, présentés sur un tube LED. Sobre et graphique, elle met l'accent sur la matière du verre et joue sur sa transparence.

VALLONS OBSCURS

Inspired by the "Dark Vallons" of the Var valley, real natural curiosities where the Mediterranean heat gives way to humid and cool canyons, this collection combines the refinement of glass with the curves of the pebbles bordering the Nice beaches

VALLONS OBSCURS

VALLONS OBSCURS SUSPENSION
28 lights
Support diam. 600 mm x H 2000 mm
available in chrome, slate or brass
Gold filaments, silver and copper galets

**DONARÉO WALL LIGHTS**

Support L. 400 mm x L. 150 mm
available in chrome, slate or brass
Silver and smoky chrome filament
glasses
G9 LED bulbs supplied

NUAGE

Derived from the Vallons Obscurs collection, the Nuage collection embellishes interiors by playing on the on and off aspect of the lights. Each cable supports various "pebbles", but only the last one of them owns a luminous source. This configuration creates a unique game of reflection and transparency, according to the chosen finishes and their arrangement.

NUAGE

NUAGE SUSPENSION

39 lights, 273 glasses

Support diam. 900 mm x H 4000 mm
available in brushed brass, chrome,
slate and copper

Glass filaments available in brass, amber
transparent, silver and smoky
LED Circuit or G9 LED bulbs supplied

QUARTZ

Inspired by the celestial bodies that gravitate in the universe, the glasses in the Quartz collection bear the names of famous asteroids. Their irregular surface and the light that passes through them gives the Vesta, Pallas and Iris models a stellar and fascinating aspect.

QUARTZ SUSPENSION

4 lights
Support dim. 420 mm x H 2000 mm
available in chrome, slate or brass
Glasses available in transparent,
smoky chrome, amber, green, matte
white and smoky

Discover the full collection in our individual Quartz leaflet

BELLADONNA

Featuring solid glass set in a metal frame, the Belladonna collection brings a modern and designer touch to your interior. A simple and elegant creation that combines technology and craftsmanship, with the integration of LED strips in the structure that carries the blown glass.

BELLADONNA TABLE LAMP

Diam. 275 mm x H 420 mm
Support finish: brass or oxidized black
Glass diam. 275 x H 310 mm
available in bronze, transparent and
smoky gold
LED strips supplied

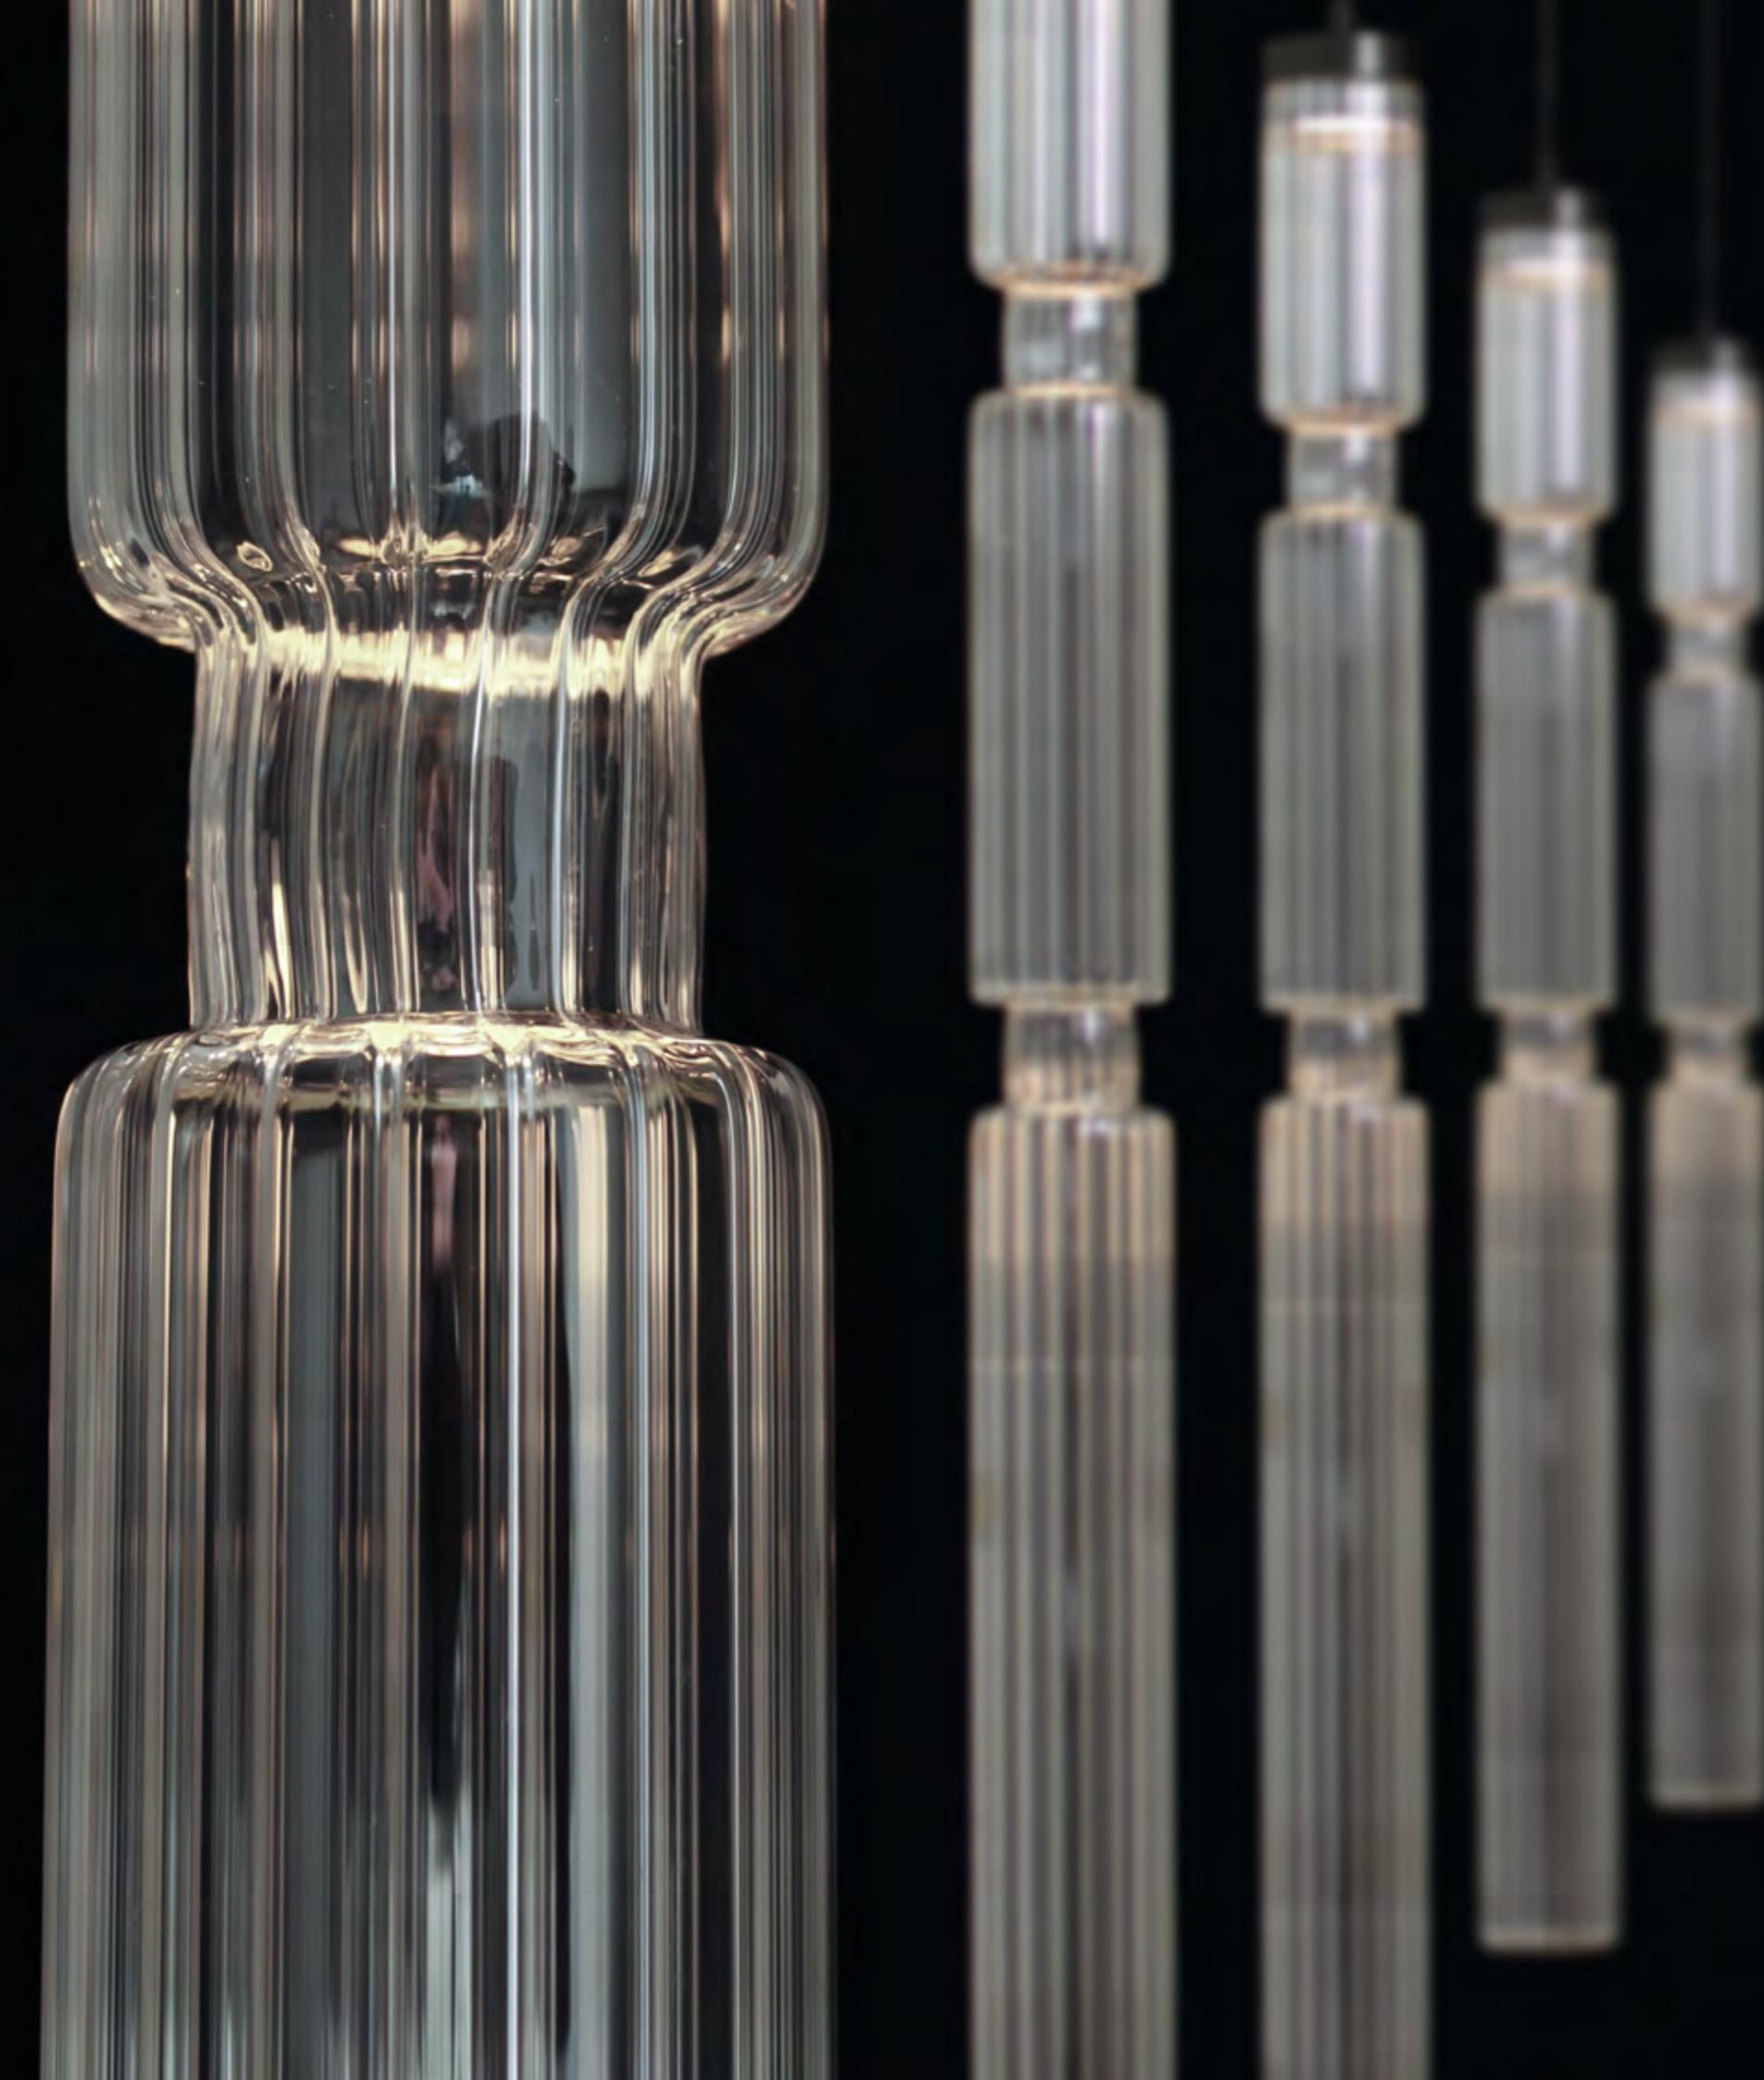

HAZE FINISH
New shade, halfway between white and transparent, which gives a vaporous and light appearance to the glass.

BELLADONNA FLOOR LAMP

Diam. 275 mm x H 1510 mm
Support finish: brass or oxidized black
Glass diam. 275 x H 310 mm
available in bronze, transparent and smoky gold
LED strips supplied

SAGANO

With its vertical glasses like antique columns, the Sagano collection inspires strength and balance. Its symmetrical lines and the grooves in its glasses allow a soft diffusion of light in your interiors.

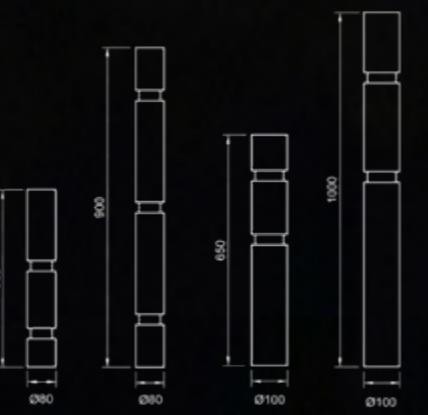

Sagano Pendant light

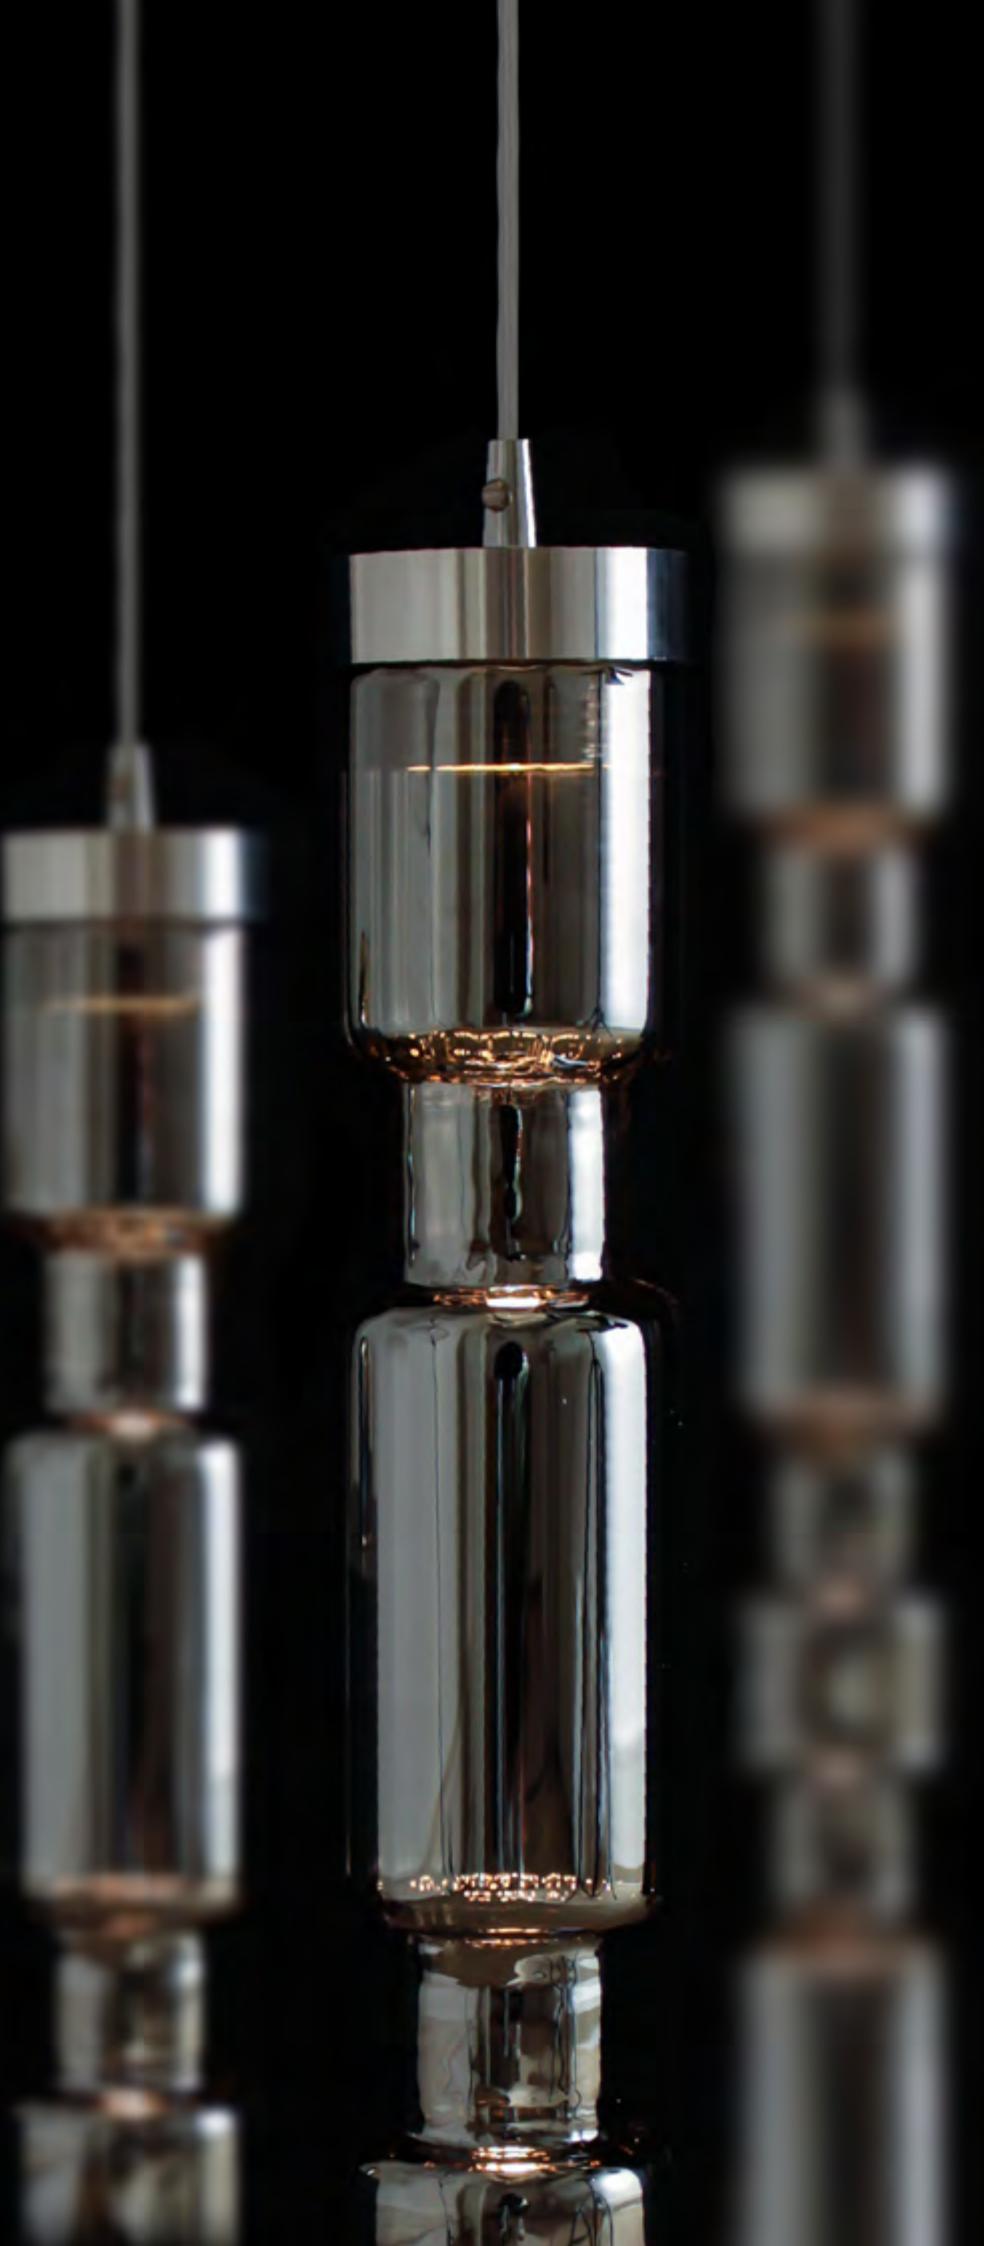

Support finish: matte black

Glass finishes: transparent, acidated.

Dimmable 17 Watts LED, 1700 lumens

Discover the full collection in our individual Sagano leaflet

MARAIS

Inspired by the parisians bistros, the Marais collection relies on its authenticity and marked identity. A collection centered on white glass globes associated with shades of brass or burnished metal.

MARAIS SUSPENSION

11 lights
Support diam. 1500 mm x H 2000 mm
available in brushed brass
Glass diam. 250, 300 and 400 mm
available in white matte and marble
E27 bulbs supplied

MARAI S

MARAI S PENDANT LIGHT

1 light

Support diam. 1500 mm x H 2000 mm

available in a brass finish

Glass diameter: 500 mm

HAREM PENDANT LIGHT

7 lights

Support diam. 410 mm x H 1700 mm
available in chrome, slate and brass
finishes.

Glasses and columns available in
premium silver and haze
E27 and E14 bulbs supplied

HAREM

Of oriental and feminine inspiration, the Harem collection includes three glasses with seductive names: Anissa, Gao and Jemma. Dressing the light like a shawl flying over a woman's body, each has its own personality and will give a marked identity to your interior.

HAREM PENDANT LIGHT

7 lights

Support diam. 410 mm x H 1700 mm
available in chrome, slate and brass
finishes.

Glasses and columns available in
premium silver and haze
E27 and E14 bulbs supplied

KASAR

The Kasar collection has evolved. The proportions of each glass have been reworked to offer a better complimentarity to the suspensions and highlight the geometrical shapes of the collection.

KASAR SUSPENSION

5 lights

Support diam. 420 mm x H 2000 mm

available in chrome, slate or brass finishes

Glasses available in gold, silver and

premium copper.

LED Circuit or G9 LED bulbs supplied

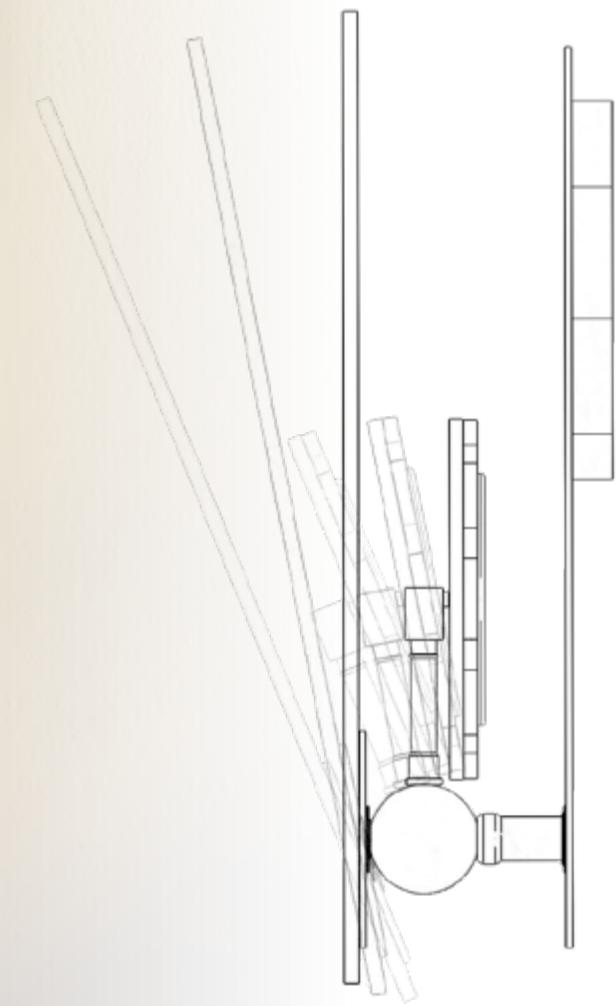

ECLIPSE

SOLE WALL LIGHT
Brass support disk gilded with gold leaf
Glass diam. 450 mm
17 Watts dimmable LED, 1700 lumens

SOLE

Like the star from which it takes its name, the Sole wall sconce illuminates the most refined interiors with a golden halo. Its light reflects on a brass disk for a warm and vibrant atmosphere.

ELECTRA

Simple and pure, the Electra models sublimate the material of the glass. An articulated arm supports an imposing decorated glass disc in this modern homage to the sun and its majesty.

ELECTRA WALL LIGHT
Brass support
Glass diam. 450 mm
17 Watts dimmable LED, 1700 lumens

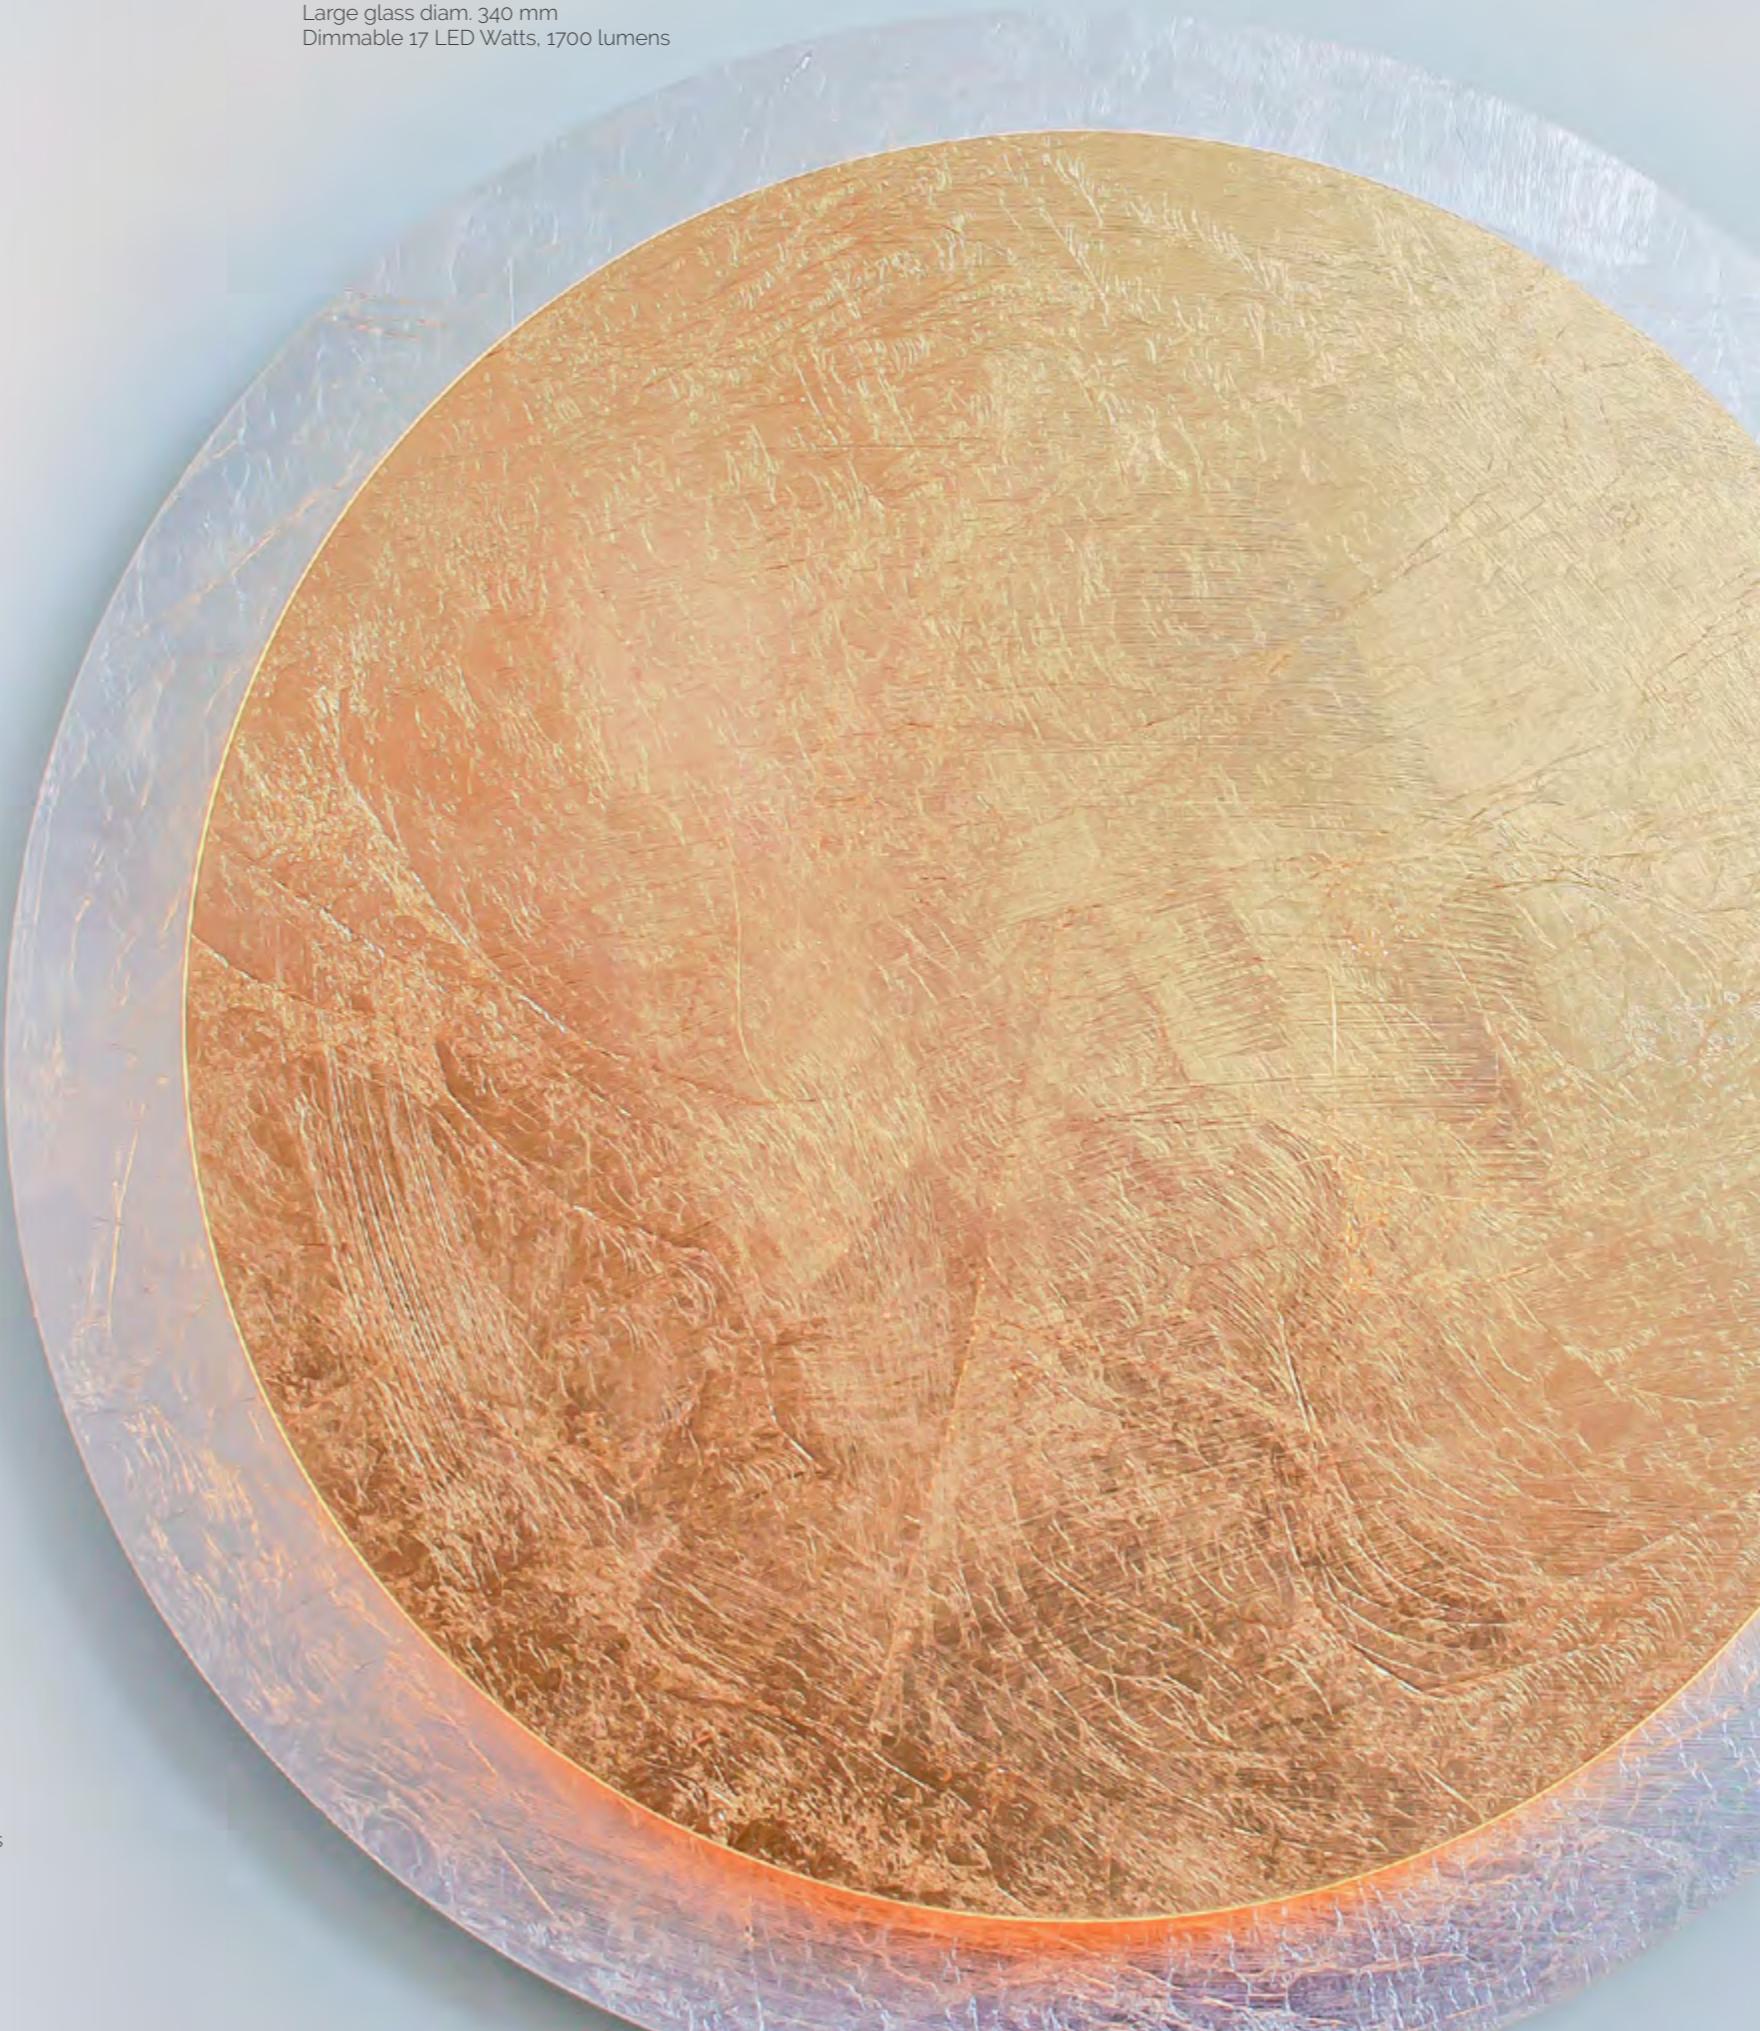

FUSION

The Fusion wall lamp is composed of two glass discs, one gilded with gold leaf, the other with silver leaf, and embodies the perpetual dance of the sun and moon.

FUSION WALL LIGHT
Brass support finish with glass discs
Gold and Silver mirror glass finishes
Small glass diam. 270 mm
Large glass diam. 340 mm
Dimmable 17 LED Watts, 1700 lumens

FUSION WALL LIGHT
Brass support finish with glass discs
Gold leaf and silver leaf discs
Small glass diam. 270 mm
Large glass diam. 340 mm
Dimmable 17 LED Watts, 1700 lumens

OKIO

Simple but also majestic, the Okio collection illustrates wonderfully Concept Verre's know-how and its constant search for harmony. Okio's distinctif sign, a luminous pearl in its glass ribbon, gives each creation a unique and strong identity.

OKIO PENDANT LIGHT
Support diam. 120 mm x H 1000 mm
available in black, white or chrome
Glasses diam. 350 available in
transparent, smoky, chrome, white, black,

transparent, smoky, chrome, white, black,
gold, silver and copper
Globe diam. 180 mm available in acidated
E27 bulb supplied

OKIO

CUSTOM MADE

Each of our piece is unique. Our mouth blown glasses have a shape of their own, and each series has its specific shades. All of our models are customizable and available from one to 90 lights. Each glass is available in different finishes and every cable is adaptable even once the structure is installed. Can't find the right lighting for your project? Create it.

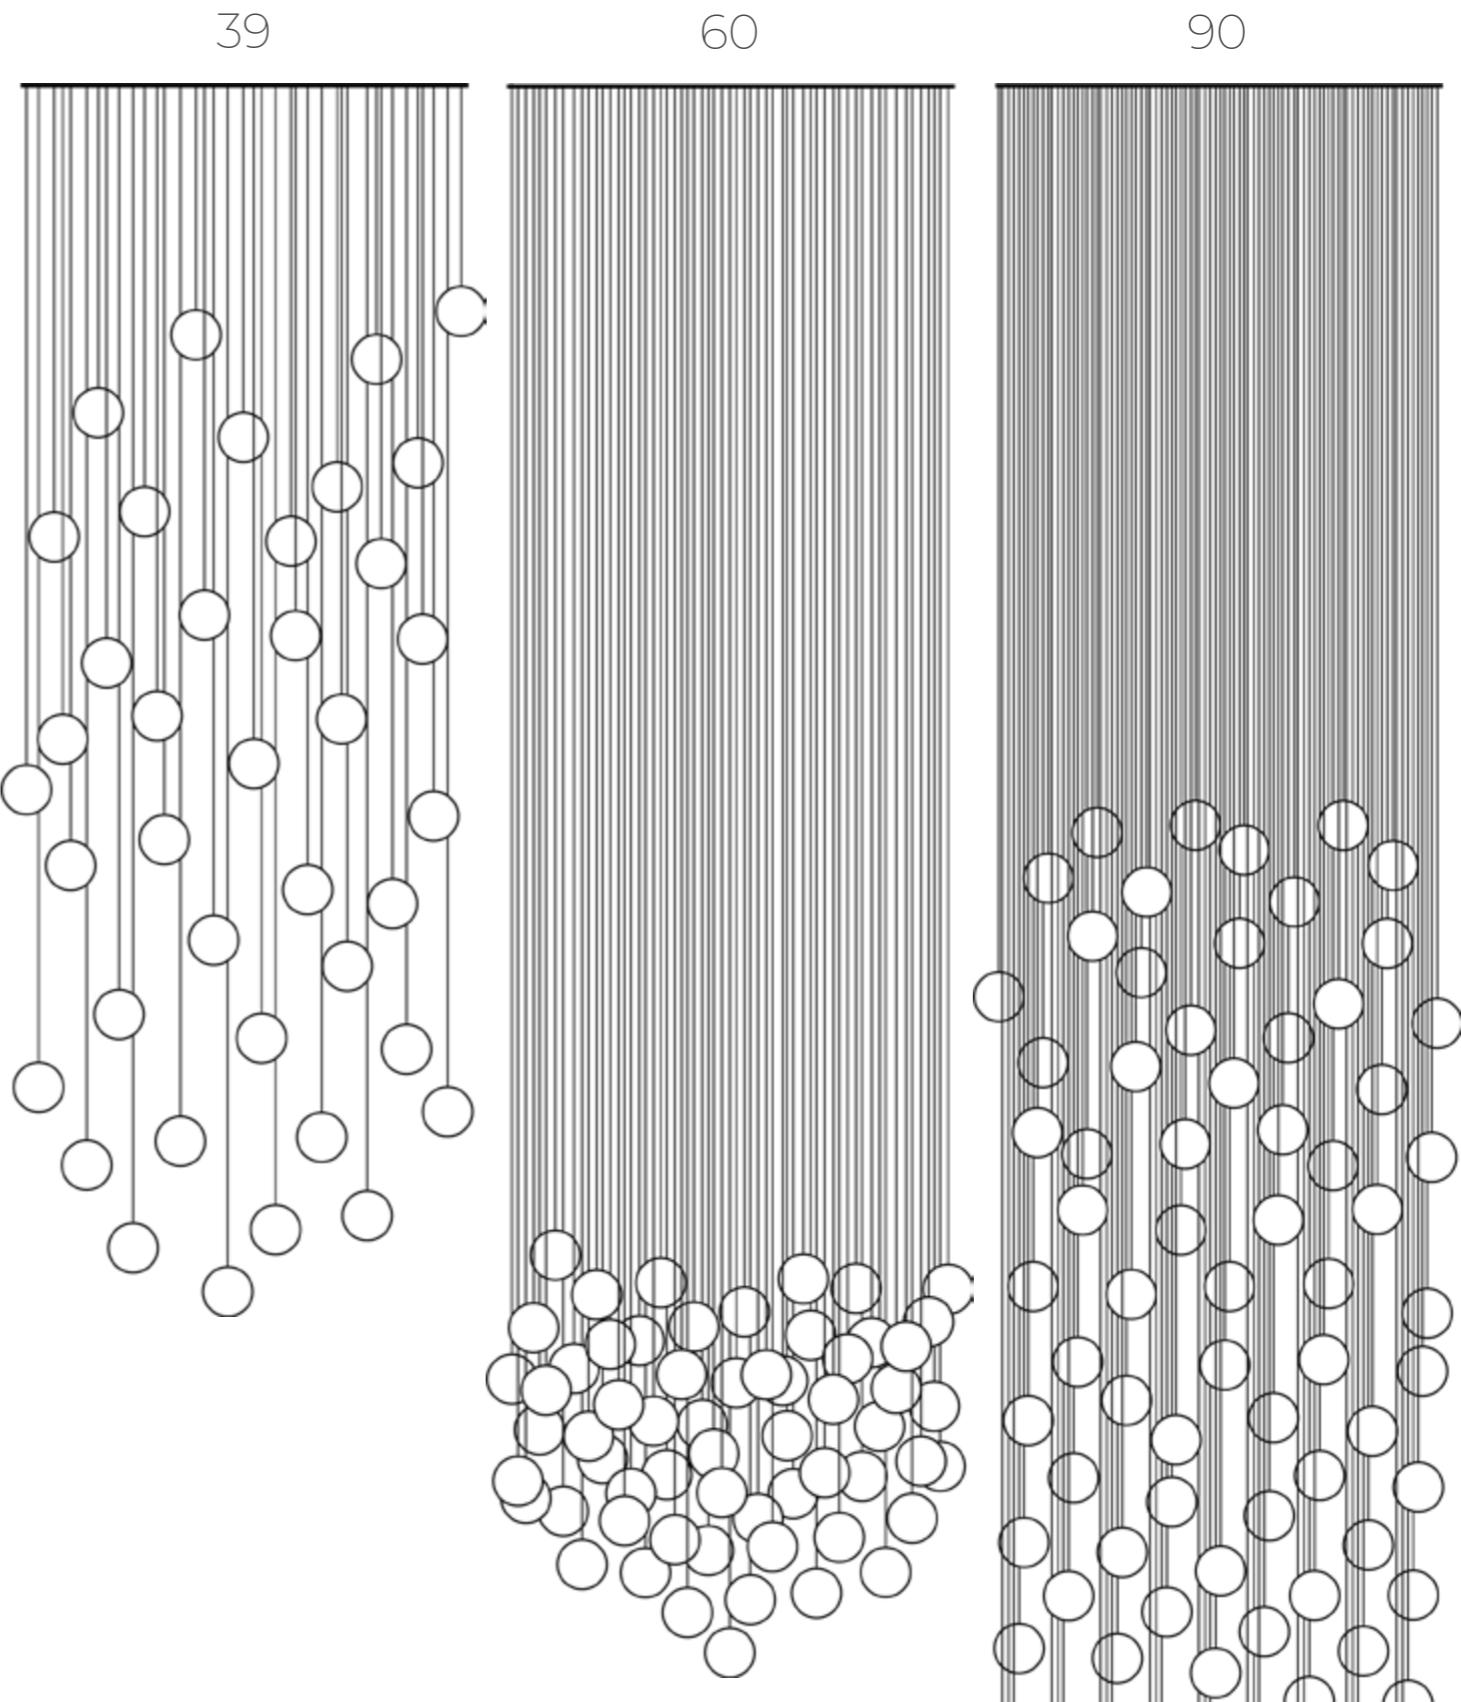

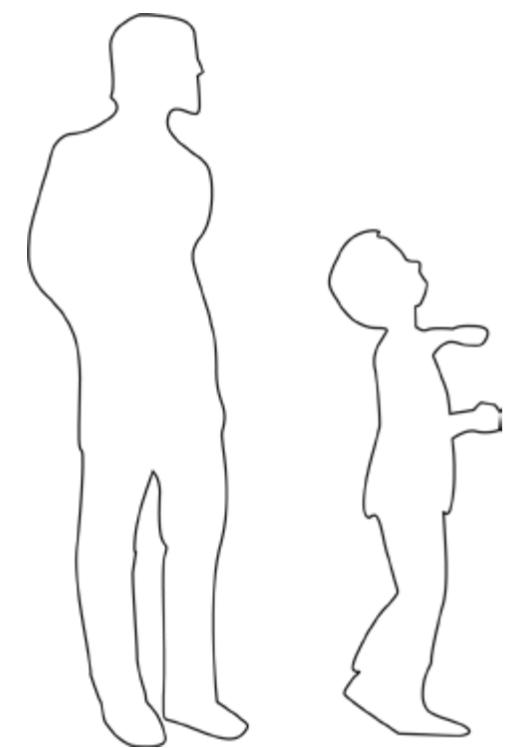

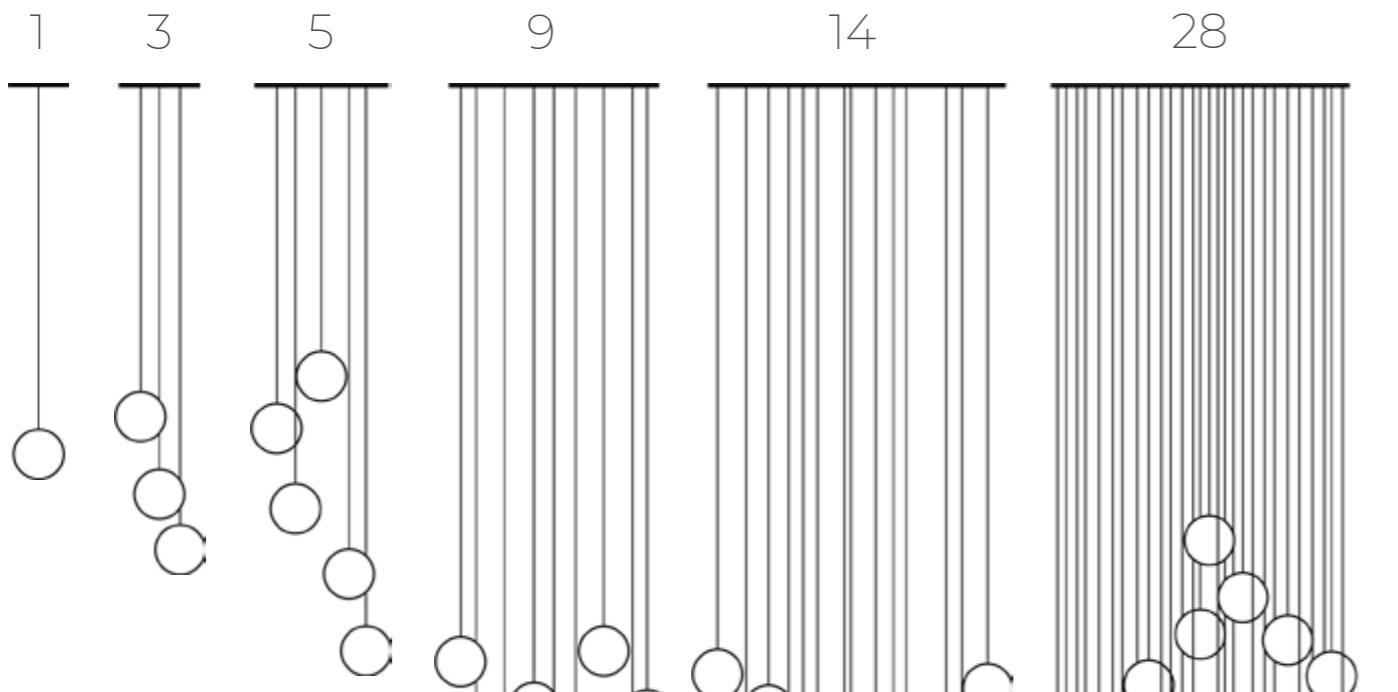

GLASSES

You can choose the model that suits you among our wide range of glasses, from the simplest to the most elaborate, from the most imposing to the most discreet.

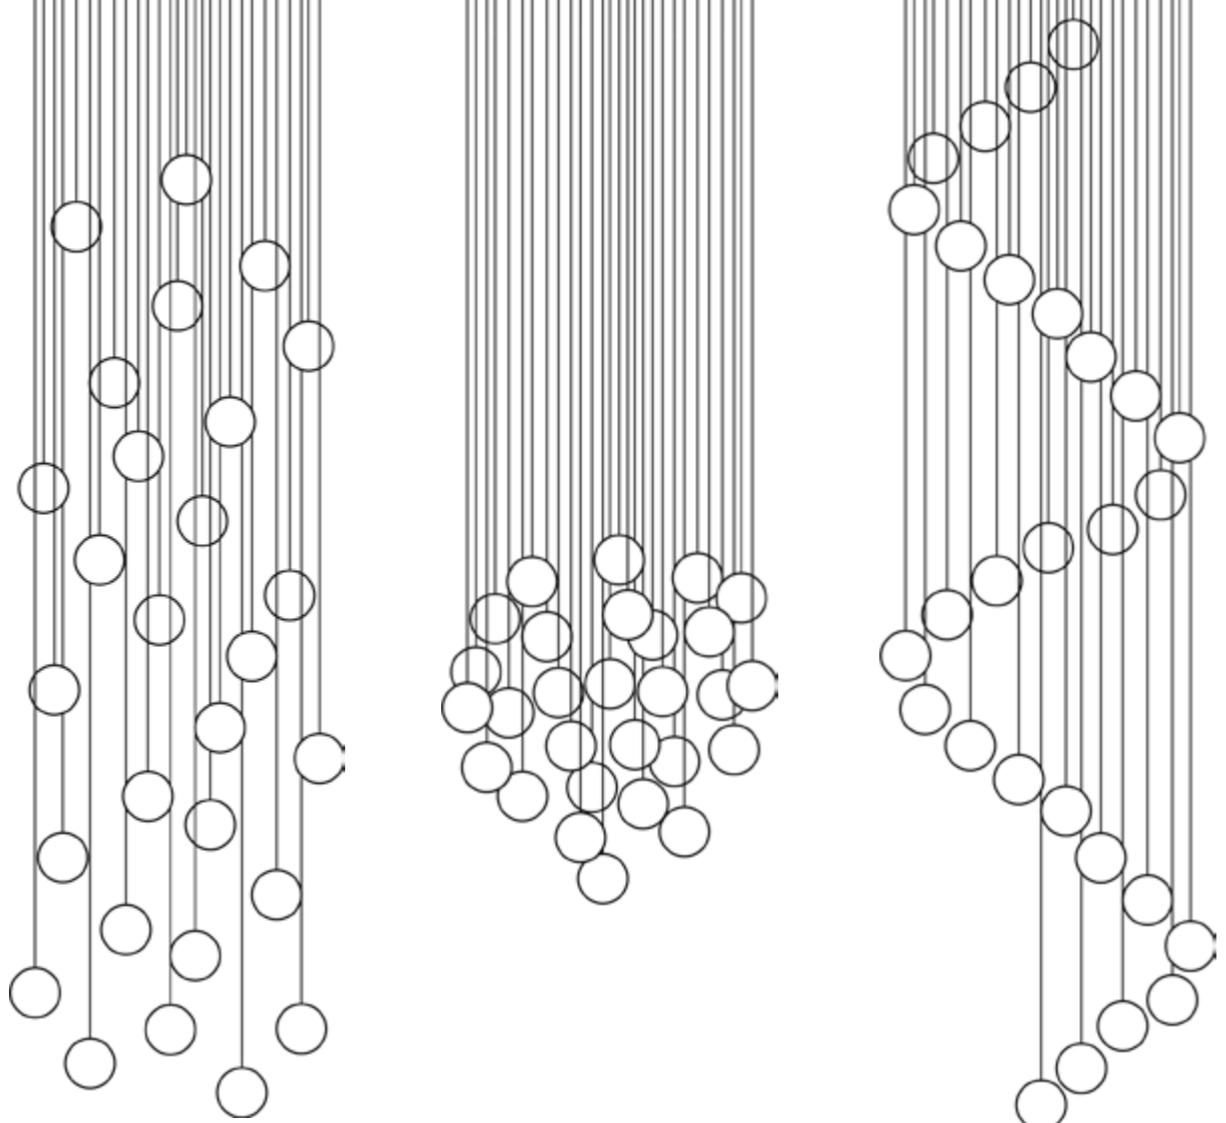

FINISHES

From transparent to opaque, or from sober to brightly coloured, each glass is available in different finishes according to its collection. You are free to choose from our standard models, or create your own colour combination for a unique result.

NUMBER OF GLASSES

Depending on your project, you can decide on the number of glasses and their arrangement. Spaced out, grouped together or in a particular pattern.

RAIN

CLUSTER

SPIRAL

The glasses are spaced out along the length of the suspension, like raindrops.

The glasses are grouped together at the same level to give a compact look to the suspension.

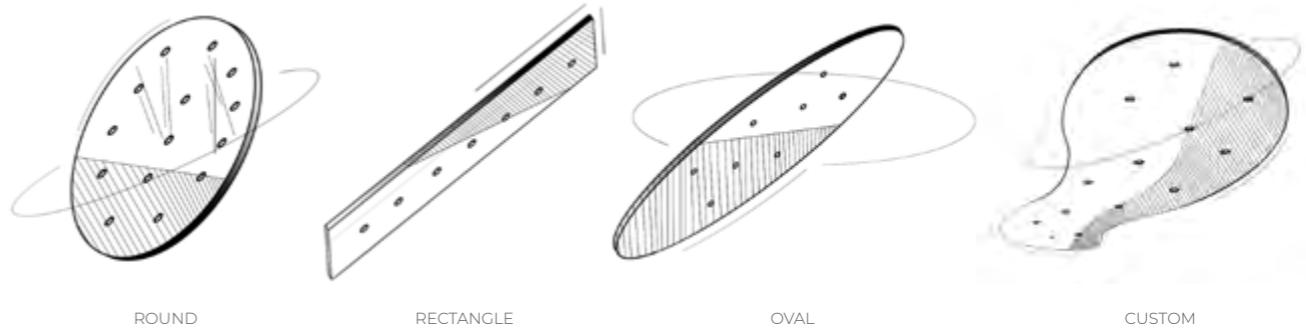

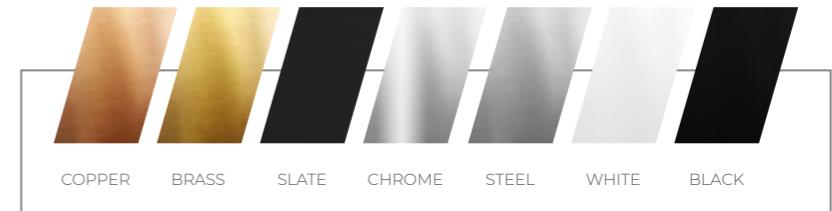

The glasses are arranged in a spiral and form a ribbon of hanging lights.

DISPOSITION

The cables can be easily adjusted even when your pendant light is installed, allowing you to change the layout any way you like. The possibilities are endless; the same suspension can completely change its look depending on the arrangement of the glass.

SUPPORTS

Mostly offered in round plates, our supports can also be declined on rectangular, oval or personalized shapes according to your taste. You can also choose the finish of your plate so that your light piece corresponds to your project.

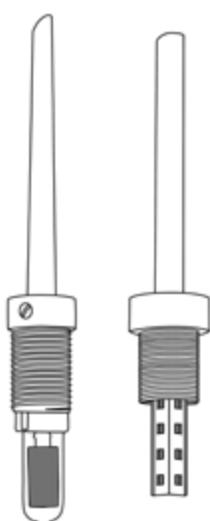

CABLES

Our cables match the colour of the plate by default, but you can choose the colour you like best and customize every detail of your suspension.

LUMINOUS SOURCE

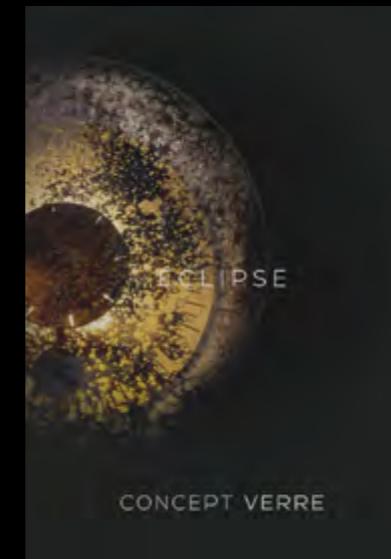

We are evolving and now offer a new LED lighting system to replace our current G9 bulbs.

Advantages over a G9 bulb:

- 30% less power consumption.
- A more heat-resistant system, with longer life (60 000 hours).
- Easy to replace individually, like a conventional bulb.
- Fully dimmable to vary the luminous intensity of all pendant lights.
- Always the same light temperature (2700 K), no variations from bulb to bulb.
- Compatible with Triac and Dali systems.

Our collections are presented in detail
in the following leaflets:
